(a statutory trust formed under the Delaware Statutory Trust Act with its principal place of business in New York, NY, U.S.A.)

Financial Report

For the period ended June 30, 2011

pursuant to section 37w of the German Securities Trading Act (*Wertpapierhandelsgesetz*)

Management Report

Deutsche Postbank Funding Trust III (the "Trust") was set up to issue Trust Preferred Securities, to issue a Trust Common Security to Deutsche Postbank AG (the "Postbank") and to use all proceeds derived from such issuances to purchase Class B Preferred Securities issued by Deutsche Postbank Funding LLC III (the "Company").

The noncumulative trust preferred securities (the "Trust Preferred Securities"), liquidation preference amount €1,000 per security (the "Liquidation Preference Amount"), represent preferred undivided beneficial ownership interest in the assets of Trust, a statutory trust created under the laws of the State of Delaware, United States of America. One Common Security of the Trust is held by Postbank. The assets of the Trust consist solely of noncumulative Class B Preferred Securities issued by Company, a Delaware limited liability company which has the benefit of a support undertaking issued by Postbank. The terms of the Trust Preferred Securities are substantially identical to the terms of the Class B Preferred Securities. The Company invests the proceeds from the sale of the Class B Preferred Securities in subordinated debt obligations issued by Postbank.

The Trust Preferred Securities and the Class B Preferred Securities do not have a maturity date and are not be redeemable at any time at the option of the holder thereof. The Trust and the Company may redeem the Trust Preferred Securities and the Class B Preferred Securities, as the case may be, in whole, but not in part, on any Capital Payment Date or at any time upon the occurrence of certain tax and capital disqualification events.

Noncumulative Capital Payments accrue on the Liquidation Preference Amount since June 7, 2008 (the Reset Date) at the Reference Rate for such Capital Payment Period plus 0.125 per cent. per annum, payable annually in arrears on June 7 of each year, provided that no Capital Payment for any Capital Payment Period commencing on or after the Reset Date shall accrue at a rate of more than 8.00% per annum.

Capital Payments on the Class B Preferred Securities are authorized to be declared and paid on any Capital Payment Date to the extent that:

- the Company has an amount of Operating Profits for the Capital Payment Period ending on the day immediately preceding such Capital Payment Date at least equal to the amount of such Capital Payments, and
- Postbank has Distributable Profits for the preceding fiscal year for which audited unconsolidated financial statements are available in an amount at least equal to the aggregate amount of such Capital Payments and all capital payments, dividends or other distributions on Parity Securities, if any, which Distributable Profits for the preceding fiscal year are allocated among Capital Payments and capital payments, dividends or other distributions on Parity Securities, pro rata.

The terms "Capital Payment Period", "Reference Rate", "Operating Profit", "Distributable Profits" and "Parity Securities" and other capitalized terms used but not defined herein are described in detail in the Sales Prospectus relating to the Trust Preferred Securities, dated June 3, 2005.

Results of Operations

During the six months ended June 30, 2011, the Company and Postbank had sufficient Operating Profit and Distributable Profits, respectively to make Capital Payments at the stated rate and the Trust received Capital Payments from the Company at such rate and when due under the LLC Agreement. As a consequence, the Trust made Capital Payments on the Trust Preferred Securities at such rate at the scheduled date pursuant to the Trust Agreement. The Trust made no payments or other distributions on the Trust Common Security.

Under the Services Agreement, the PB Capital Corporation – a subsidiary of the Postbank - is obligated, among other things, to provide legal, accounting, tax and other general support services to the Trust, to maintain compliance with all applicable U. S. and German local, state and federal laws, and to provide administrative, recordkeeping and secretarial services for the Trust. The fees and expenses of the Trust and all other obligations of the Trust are paid by the Company and Postbank.

Net income for the six months ended June 30, 2011 was 4 euro.

Risk Report

The Trust is affected mainly by market price, credit and liquidity risk all of which are managed by Postbank Group.

Market risk

Market risk denotes the potential risk that may lead to losses in financial transactions due to changes in interest rates, spreads, volatilities, commodity prices, exchange rates, and equity prices.

The market risk in form of interest rate risk of the assets and liabilities of the Trust offset each other.

Liquidity risk

Liquidity risk is defined as the risk of being unable to meet current or future payment obligations.

Since the terms of the assets and liabilities are equivalent, the liquidity risk is insignificant.

Credit risk

Credit risk is the risk of possible losses arising from the inability of a counterparty to discharge its payment obligations, or from a deterioration of its credit rating.

The Trust's assets are subject to the credit risk of Postbank which has an investment grade rating.

Outlook

Payments by the Company on the Class B Preferred Securities are the source of funds for the Capital Payments on the Trust Preferred Securities. In turn, the Company has invested substantially all proceeds from the issuance of the Class B Preferred Securities in Initial Debt Securities issued by Postbank. Under the Initial Debt Securities, interest is paid at a rate of at least 0.125% above the Reference Rate, payable annually on June 7 of each year, provided that no interest payment shall accrue at a rate of more than 8.00 per cent per annum. Interest is paid at the same dates as Capital Payments are scheduled under the Class B Preferred Securities. The Trust expects that the Company, PB Capital Corporation and Postbank will continue to meet their respective obligations under the Class B Preferred Securities, the Initial Debt Securities, the Services Agreement and the other agreements, as applicable, made in connection with the Trust Preferred Securities. For 2011 the Trust expects a net profit.

(6) Fair Value of Financial Instruments

International Financial Accounting Standards (IFRS) 7 "Financial Instruments: Disclosure" requires the disclosure of fair value information for financial instruments for which it is practicable to estimate that value, whether or not the instrument is recognized in the statement of financial condition. Quoted market prices, when available, are used as the measure of fair value. In cases where quoted market prices are not available, fair values are based on market data of another, essentially identical quoted financial instrument, when available, or present value estimates of anticipated cash flows.

The Securitized Liabilities are quoted on an active market. The quoted market price of the Securitized Liabilities is used as the measure of fair value.

The Investment Securities are not quoted on an active market. As the Securitized Liabilities are essentially the same financial instruments as the Investment Securities, the quoted market price of the Securitized Liabilities is used, in accordance with IAS 39.AG74, for measuring the fair value of the Investment Securities.
