Deutsche Postbank Funding Trust IV (the "Trust") was set up to issue Trust Preferred Securities, to issue a Trust Common Security to Deutsche Postbank AG (the "Bank") and to use all proceeds derived from such issuances to purchase Class B Preferred Securities issued by Deutsche Postbank Funding LLC IV (the "Company").

The noncumulative trust preferred securities (the "Trust Preferred Securities"), liquidation preference amount €50,000 per security (the "Liquidation Preference Amount"), offered hereby represent preferred undivided beneficial ownership interest in the assets of Deutsche Postbank Funding Trust IV, a statutory trust created under the laws of the State of Delaware, United States of America. One common security of the Trust will be owned by Deutsche Postbank AG. The assets of the Trust will consist solely of noncumulative Class B Preferred Securities issued by Deutsche Postbank Funding LLC IV, a Delaware limited liability company which has the benefit of a support undertaking issued by Postbank. The terms of the Trust Preferred Securities will be substantially identical to the terms of the Class B Preferred Securities. The Company will invest the proceeds from the sale of the Class B Preferred Securities in subordinated debt obligations issued by Postbank

The Trust Preferred Securities and the Class B Preferred Securities will not have a maturity date and will not be redeemable at any time at the option of the holder thereof. The Trust and the Company may redeem the Trust Preferred Securities and the Class B Preferred Securities, as the case may be, in whole, but not in part, on the Initial Redemption Date (as defined herein) scheduled to occur on June 29, 2017 or any Capital Payment Date (as defined herein) thereafter, or at any time upon the occurrence of certain tax and capital disqualification events as more fully described herein.

Distributions in respect of the Trust Preferred Securities and the Class B Preferred Securities, referred to as Capital Payments (as defined herein), are non-cumulative and will accrue on the Liquidation Preference Amount (i) from and including June 29, 2007 (the "**Issue Date**") to but excluding June 29, 2017 (the "**Reset Date**"), at a fixed rate of 5.983% per annum, payable annually in arrears on June 29 of each year (including on the Reset Date) and (ii) for each Capital Payment Period (as defined herein) commencing on or after the Reset Date, at 3-month EURIBOR (as defined herein) for such Capital Payment Period plus 2.07% per annum, payable quarterly in arrears on March 29, June 29, September 29 and December 29 of each year. - Postbank has Distributable Profits for the preceding fiscal year for which audited unconsolidated financial statements are available in an amount at least equal to the aggregate amount of such Capital Payments and all capital payments, dividends or other distributions on Parity Securities, if any, which Distributable Profits for the preceding fiscal year are allocated among Capital Payments and capital payments, dividends or other distributions on Parity Securities, pro rata.

The terms "Operating Profit", "Distributable Profits" and "Parity Securities" are described in detail in the Prospectus.

Results of Operations

During the six months ended June 30, 2009, the Company and the Bank had sufficient Operating Profit and Distributable profits, respectively to make Capital Payments at the Stated Rate and the Trust received Capital Payments from the Company at such rate and when due under the LLC Agreement. As a consequence, under

the Trust Agreement the Trust made Capital Payments on the Trust Preferred Securities at such rate at the scheduled date. The Trust made no payments or other distributions on the Trust Common Security.

Under the Services Agreement, the Bank is obligated, among other things, to provide legal, accounting, tax and other general support services to the Trust, to maintain compliance with all applicable U. S. and German local, state and federal laws, and to provide administrative, recordkeeping and secretarial services for the Trust. The fees and expenses of the Trust and all other obligations of the Trust will be paid by the Bank. During the first six months ended June 30, 2009 the Trust received all such services and the Bank paid such fees, expenses and obligations as provided in the Services Agreement.

Net income for the six months ended June 30, 2009 was 1,484 euro.

Risk Report

The Trust is affected mainly by market price, credit and liquidity risk. Market price, credit and liquidity risks are managed by Postbank Group

Market risk

Market risk denotes the potential risk that may lead to losses in financial transactions due to changes in interest rates, spreads, volatilities, commodity prices, exchange rates, and equity prices.

The market risk in form of interest rate risk is compensating between the asset and liability side. Therefore, the implementation of a sensitivity analysis is not economically.

Liquidity risk

Liquidity risk is defined as the risk of being unable to meet its current or future payment obligations, either in the full amount due, or as they fall due.

Since are the terms of the assets and liabilities equal, the liquidity risk is compensating between the asset and liability side

Credit risk

The risk of possible losses arising from the inability of a counterparty to discharge its payment obligations, or from a deterioration in its credit rating.

Credit risk is entirely indirectly LLC IV opposite of the Postbank AG. The Postbank AG has investment grade rating. A default of Postbank AG is not expected.

Outlook

The source of Capital Payments by the Trust is payments by the Company on the Class B Preferred Securities. The Company has invested substantially all the proceeds from the issuance of its securities in the Initial Obligation issued by the Bank. Under the Initial Obligations, interest is paid at the Reference plus 0.01 per cent per annum and at the same dates as Capital Payments are scheduled under the Class B Preferred Securities. The Company is also a party to the Services Agreement with the Bank and receives similar services and payment of fees, expenses and obligations as the Trust. The Trust expects that the Company and the Bank will continue to meet their respective obligations under the Class B Preferred Securities, the Initial Obligation, the Services Agreement and the other agreements made in connection with the Trust Preferred Securities. For 2010 the Trust is expecting a similar net profit as in 2009.

Notes to Financial Statements

Period ended June 30, 2009

(1) Organization

Deutsche Postbank Funding Trust IV (the "Trust") is a statutory business trust created on June 1, 2007 under the laws of the State of Delaware. The Trust was incorporated for the sole purpose of issuing EUR 500,000,000 of Trust Preferred Securities to investors and EUR50,000 Trust Common Security to Deutsche Postbank AG. The proceeds from the issuance of the Trust Preferred Securities were used to purchase the capital stock from Deutsche Postbank Funding LLC IV (the "Company"). The Trust does not engage in any business other than receiving and holding the capital stock, issuing the related Trust Preferred Securities, collecting dividends paid with respect to the capital stock, paying interest to the holders of the Trust Preferred Securities, and performing other obligations. The financial statements and all transactions entered into by the Trust and the Company are denominated in Euros.

The Trust entered into a Services Agreement with LLC I. The LLC I is obliged to pay the fees and expenses of the services and all other obligations of the Trust pursuant to the Services Agreement including any fees for German authorities.

Deutsche Postbank AG is the parent entity of the Trust. The Trust is included in the consolidated financial statements of the Postbank Group. The ultimate controlling party of the Trust is Deutsche Post AG.

(2) Basis of Accounting

The financial statements constitute an annual financial report within the meaning of the Transparenzrichtlinie-Umsetzungsgesetz (TUG – Transparency Directive Implementing Act (section 37v of the WpHG – Securities Trading Act)) as of January 5, 2007.

Interest income represents the payments received or receivable from the subordinated note receivable from Deutsche Postbank AG and interest expense represents payments paid or payable from the issuance of preferred securities subject to mandatory redemption.

The Trust is a grantor trust and, as such, is a simple trust. Simple trusts must pass through all items of income and deductions to the grantor. Therefore, the Trust has no taxable income and no requirement to record a tax expense.

The disclosures on risks from financial instruments (in accordance with IFRS 7) are presented in the Risk Report contained in the Management Report.

The following Standards were required to be applied for the first time in the reporting period: IFRS 8 "Operating Segments", IAS 1 "Presentation of Financial Statements (revised 2007)", IAS 32 "Financial Instruments: Presentation" and the "Annual Improvements Project 2008". Effects for Trust resulted from IAS 1 (rev. 2007). The core element of the amendment to IAS 1 is the extension of the existing income statement to include gains and losses recognized directly in equity to produce a statement of comprehensive income. The Trust has no gains and losses which would have to be recognized directly in equity. Therefore effects from the revised IAS 1 resulted only in the change of the title from "income statement" to "statement of comprehensive income".

The Trust comprises only one segment that is why it waived the segment reporting in accordance with IFRS 8.

(6) Fair Value of Financial Instruments

International Financial Accounting Standards (IFRS) 7, *Financial Instruments: Disclosure*, requires the disclosure of fair value information about financial instruments for which it is practicable to estimate that value, whether or not the instrument is recognized in the statement of financial condition. Quoted market prices, when available, are used as the measure of fair value. In cases where quoted market prices are not available, fair values are based on present value estimates of anticipated cash flows.

These derived fair values are significantly affected by assumptions used, principally the timing of future cash flows and the discount rate. Because comparisons to independent market quotes are not possible and assumptions are inherently subjective in nature, the estimated fair values cannot be substantiated and, in many cases, these estimated fair values could not necessarily be realized in an immediate sale or settlement of the instruments.

The following are the estimated fair values of the Trust's financial instruments recognized on the statement of financial condition:

	June 30, 2009		December 31, 2008	
	Carrying amount (€)	Fair value (€)	Carrying amount (€)	Fair value (€)
Investment securities	500,050,000	236,285,910	500,050,000	170,025,840
Securitized liabilities	500,000,000	235,000,000	500,000,000	170,000,000
